

## About Insect Relief

We started Insect Relief Pest Control after moving to Pahrump. Since everthing is rural here we found pests to be a huge problem, not just for us, but for everyone.

Looking for something that is safe for use around pets (we have 1 dog and 2 cats), I found Orange Guard, and saw that it was non-toxic. After buying my first bottle, I was convinced this could help a lot of people just like me.

My neighbors that have lived here longer told me they fired their previous pest control service because the bugs were still getting in. I told them I was going to be selling Orange Guard, and they practically bought my entire stock.

Orange Guard has helped us a lot, and I know it will help you too.
