

Ant Control

Ants go where the food (and water) is. I recommend spraying the base boards of your kitchen cabinets. If you have a pantry in your kitchen be sure to spray the inside of it where the walls meet the floor. If you find an ant hole in your yard make sure the spray nozzle is set to stream and spray directly into the ant hole, then the surrounding areas. Remember Orange Guard is also safe to use directly on your counter tops. If you find them on your kitchen counters spray around the splash guard of your counters. Another point of entry for ants could be where the plumbing penetrates the wall for the kitchen sink. Spray Orange Guard in the hole in the wall, then you can use caulk to fill any gaps in the wall around the plumbing.

Buy 6 Quarts of Orange Guard and SAVE over \$13.00 off the single quart rate.

Orange Guard 6 Pack of 32 oz. Spray

Buy 2 Quarts of Orange Guard and SAVE almost \$4.00 off the single quart rate.

Orange Guard 2 Pack of 32 oz. Spray
